FIELD NOTES

PROJECT:

INTERVIEW SUBJECT: _____

LOCATION: _____

DATE: _____

INTERVIEWER: _____

FIELD NOTES: It is important to write a one-page reflection about the interview you just conducted, capturing some visual and emotional details that cannot be recorded. This is good to do when you're in the car, right after the interview, or as soon as you return to your home or office, while the thoughts are fresh. Include anything that caught your attention, might add depth to the oral history or is a general description of the environment and your interaction with the interview subject.
